A New Future

There is a turning point in the life of each child at Morning Star, the moment the family court judge issues the sentence that terminates the biological parental rights. The child then becomes a ward of the state and will enter the government's adoption program. A significant moment particularly for those old enough to understand the implications, it happened to Claudia a week ago. She has been with us over a year and now at the age of 6, can begin to look forward to the possibility of a much different future. Please pray that the Lord will provide a loving Christian family for her.

Future News

Strong Tower Christian School graduates its 4th K5 class this coming week. For all of the students to move into the future with a guarantee of a first rate Christian education, there needs be more space. Construction began last month on two new classrooms vital to the school's future development as the oldest students will enter 4th grade in March. The window of opportunity to have these

classrooms and offices ready is steadily closing and much help is needed. If you have any inclination to be a part of this project please visit our website at <http://morningstarperu.org/2012construction.pdf> Whether it be volunteering or financial contributions, we are all investing in souls being saved for eternity, evidence of which are the baptisms to be held January 1st, most of the 7 requesting baptism were originally contacted through the school. We "praise the Lord for His greatness and His kindness towards the children of men"

behalf.

Thank you for your continued prayers on our

The Staff at Morningstar
