January 4th, 2011

Morning Star Christmas Program

Christmas Eve the children of Morning Star opened their presents amid a flurry of excitement in their individual homes. On Christmas Day however the entire team gathered for a celebration beginning with lunch followed by a special program in which they participated in an impromptu play finalizing in a treasure hunt for the children on the grounds. Afterward they were presented with a variety of wheels, bikes, scooters & skateboards that they will all share especially during the upcoming summer months of vacation.

Classroom Construction

The first of three construction crews has arrived to build the new classrooms for the 2011 school year at Strong Tower. While the Morning Star children are being kept busy during the day with a summer activities program, electric grinders, saws and drills fill the air with a cacophony of busyness churning out the first trusses, after which the framing will begin on the new slab seen below. The Lord continues to graciously provide for the needs of the project and the next two teams that arrive later in January will handle the electrical,

plumbing and drywall. Please pray for safety and timely completion of each stage of the project.

Thankfully the weather is a little cooler than usual and everyone is managing to stay hydrated.
