Morningstar Childreach
Ministries News Bulletin

February 8th, 2014

We are truly grateful to the Lord for His provision that has allowed us to move ahead with the construction of much needed classrooms for Strong Tower Christian School. Our local contractor has completed the entire second floor and will begin laying brick on the third floor next week. The team from Prince Edward Island, (Canada) has been a

great help, refurbishing the existing classrooms and making doors and windows for the new classrooms. They have worked their hearts out in a true labor of love for which we are very thankful and they will be departing this Sunday. Tomorrow a group of four with Team Workers Abroad will arrive to pick up where they left off. We are blessed to have as well 4 individual volunteers who are with us for a couple of months and we anticipate being ready for the beginning of classes March 6th.

Daniel came to Morningstar at 4 months of age with a plethora of medical issues to overcome. The day he turned 4, his adoptive family arrived and just yesterday they finalized the paperwork here in Chiclayo and flew to Lima last night. We rejoice in the Lord's provision of a fine Christian family for him.

Thank you for your interest and support of the ministry here.
