

Rising Star

Morningstar Childreach Ministries News Bulletin

April 1st, 2013

Carol & Tom spent most of March on a whirlwind trip through the southeastern US visiting the three volunteer groups planning to come to Morningstar

this summer. Classes at Strong Tower Christian School began March 3rd and the robust student body is making great use of the facilities. Monday morning opening exercises include a salute to the flag as well as an

evangelistic devotional. Leanna Ueland just left last week after being an important part of the preparations and initiation of the school year, and the Lord has graciously continued to provide the needed staffing to cover each slot and just the right time. Ron Babineau (bottom front row below), has been with us throughout the

construction projects and stayed to continue on with small improvement projects and maintain too copious to mention individually, his hard work and loving attention to the kids of Morningstar will be sorely missed.

We're happy to be able to report that the legal "logjam" in the cases of several of the children of Morningstar has resolved and they are on their way towards the adoption process. Please continue to pray for the Perla (above with

Leanna) and the Pacuar brothers and what the Lord has planned for them in the near future.

Thank you for your interest and support of the ministry here.
