## Morningstar Childreach Ministries News Bulletin

April 2<sup>nd</sup>, 2012

### Another Bittersweet Farewell

On Monday afternoon, March 26<sup>th</sup>, Deysi met her new family for the first time. It was a touching moment as they all shared their first looks and hugs and began the bonding process. She officially left Morningstar's custody on Thursday the 29<sup>th</sup> but will be in Chiclayo for another couple of weeks as the necessary paperwork moves forward. During her two and a half years with us has been a privilege to see her grow and blossom as she has found a firm faith in God and love for those around her. Join with us in thanking God for this answer to prayer and in praying for this beautiful new family as they grow together!

### New Prosthesis for Anita

After almost three years of constant use, Anita's prosthetic leg was wearing out. Not only the mechanics of it had become unreliable but she had outgrown it and in spite of constant maintenance it was painful to use. After several months of prayer and fund raising, Carol took Anita to Lima for two weeks and at the end of that time she walked off the airplane in Chiclayo with a huge smile, she had a New leg!! Small adjustments have been made as she adapts to it but she's much more confident and has asked if she can make unaccompanied visits to the countryside to visit her family, showing just how much more confident she is with the new leg. Thank you all for your prayers and

support of this project.
