

Rising Star

News of some of the Lord's work in Northern Peru

We are wrapping up the outreach program carried out by the first of three short term mission teams. We changed our approach this year and working in conjunction with city authorities targeted the members of the city wide "Breakfast Supplement" program. Low income families in the community register for a daily ration of soy milk and oatmeal provided by the government and the distribution of that is handled by

local groups of mothers that work together, so the team did some home improvement projects in some of the homes in the mornings and in the afternoons held a meeting with all the Moms to talk to them about issues such as health, nutrition and cleanliness as well as share the gospel. The final day all the Moms (about 60 of them) involved during the week came together at Morningstar for an afternoon tea and the gospel was presented and a gift basket with some staple groceries were handed out to each one present, along with an invitation to

attend Sunday School with their families. We pray the Lord will bless the seed sown in their hearts as God's love was shared with them in Word and deed. This week of activity will be repeated with two more teams that will be coming later on this month and next.

Praise the Lord with us for His provision of the funds necessary to build two more classrooms for Strong Tower that will allow us to continue growing by adding two grades of high school for the 2016 school in His will.

Siblings Antonio & Jhoan left Morningstar this week by order of the Judge in their case, they have been moved to a facility in Lima where they will await an adoption in the near future. Their disgruntled grandmother has filed complaints with the authorities and two separate District Attorneys have opened investigations of Morningstar and both Tom & Alberto are the targets of the indictment. You can pray for these matters to be favorably resolved and the case dismissed.

We thank our gracious Savior and Lord for all He is doing. May His name be magnified without ceasing.
