

# Rising Star

## *News of some of the Lord's work in Northern Peru*

When Claudio was seven months old, his mother located his father with whom she had experienced a weekend fling a year and a half before and handed Claudio to him and disappeared. Surprised to say the least, his father handed him over to the authorities doubting his parenthood. It was at that point that Claudio came to Morningstar and several months later, once DNA testing revealed the genetic connection the father also left town. Claudio turned three this month and has been declared a ward of the state. Adoption is certainly a possibility but due to the COVID quarantine getting his paperwork to move forward has been a challenge. Please pray for a quick resolution that will allow him to be adopted.

Another birthday we celebrated in Septmeber was Romy's who turned seven. She and her 5 year old sister Kathy have been at Morningstar for two years and their's is another case that has been stuck in the legal system for years. Just as we were getting some traction at the beginning of the year the lockdown stalled everything. Once again we ask you to pray for their case to move forward towards an eventual adoption process.

With a full load of twenty children housed at Morningstar our weekly staff meetings have been a big help in keeping things running smoothly. We are very thankful for the Lord's continued direction and provision for the ministry here and we very much appreciate your partnership with us through your prayers as well as your financial support which is a great encouragement as we face the challenge of operating under the current restrictions. Peru is still not open to international travel and certain parts of the country are still on total lockdown. We continue to trust our soveriegn God to work in each case to bring about fruit for His kingdom and a witness for His glory. We appreciate your prayers on behalf of the Lord's work at Morning Star!
