Strong Tower Graduation

Class of 2008

We're praising the Lord for the successful conclusion of the 2008 school year. Eight children graduated from Kinder Garden on Wednesday night. Their families and friends filled out an attendance of over 100. One of the parents of each of the children spoke a few words of recognition and encouragement to their child, and it was significant to us to hear them mention how much of a positive influence the schooling had been not just to their child but to the family as a whole. So many people participated in this effort throughout the year, staff, volunteers and teachers; we thank the Lord for each one, especially for all those who held up this

ministry in prayer. Now as we turn our attention to the upcoming school year, we thank the Lord for providing the accreditation to begin elementary school. Strong Tower will expand to open first grade, and we are currently taking applications for teachers and will be seeking wisdom from the Lord in the hiring process.

As for the children's home, we are rejoicing in the fact that the Lord has motivated Jorge and Margarita our house parents, to commit to staying with us for another year at least, they are such an integral part of the ministry here on all fronts, and as new doors open to serving the community and spreading the gospel, we see the Lord

hand day by day guiding each step of the way.

Please continue to pray for: a) Full time English teacher, b) 1st grade and K teachers, 2) another set of house parents that will enable us to open the second house of the children's home.

Have Blessed Christmas and a challenging New Year
