DAD'S TURN

Last Saturday was the Father's Day program for both the Strong Tower fathers as well as those from Sunday School. There was a good turn out and a good receptiveness to the Gospel. Please pray the Lord will bring it to fruition in their hearts. That morning the team from Cornerstone Church in St. Pete, Florida, held a medical clinic with the cooperation of local doctors. One hundred patients were

treated free of charge and each was given a personal hygiene kit with instructions on oral hygiene. During their time here the men on the team refinished the jungle gym and painted the new volunteer room. Most of them returned home early this week, Mark Fox and his daughter Mia have stayed on at our home, and continue to help out at Star. The team brought copious amounts of school supplies, books and crafts and also visited the State orphanage to spend time making the crafts with the children as well as with two of the ladies groups in a couple of the assemblies here in Chiclayo.

Construction continues on the new duplex, the roof for the second story was poured last week and tomorrow the tile on the floors and bathrooms of the first floor will begin. Bethany and Katie, our volunteers from Vancouver leave us this weekend, they have been a tremendous help and encouragement!
