

"Morning Star" Children's Home News Bulletin

September 30th, 2008

THE MOVE IS MADE!

After several weeks of 10-12 hour work days, and a seemingly unending string of details to tend to, the first floor of the new Morningstar Housing Unit is done. Jorge, Margarita and all the children moved in yesterday. There are still shelves to put up, pictures to hang etc but, THEY'RE IN!

Now we can begin to move the Strong Tower classrooms into the old house, so the children will have a cleaner, quieter environment to study in.

You may remember the last newsletter mentioned the countryside elementary school the team visited to hold a medical clinic, well, at the principals request, Martin & Carlos will be going out there every week, and will give given a class period with each of the grade levels, Martin will teach P.E., and Carlos will teach a Bible lesson. This is the first formal outreach for the young and small assembly that meets in Pueblo Nuevo. The picture below shows the kids they'll be working with. This is a magnificent opportunity for which we praise the Lord.

Thanks so much for you continued prayers!
