

Rising Star

News of some of the Lord's work in Northern Peru

Much prayer and perseverance brought about the desired blessing after 3 ½ years: a new family for Claudio. Old enough to completely understand what was happening, he welcomed his new parents with joy and excitement, and after the three-day visitation period, he was more than ready to hop into their car for the ride to Lima where they reside.

Departures from Morning Star:

A family court ruled that 9-year-old twins Sandra & Alex should return to the foster family they'd been with for the last three years.

Both of 9-year-old Laricsa's parents are deceased, however the aunt that has custody of her older sister was granted custody of her as well. While her stay at Morning Star was brief, it was a blessing to see her joining her family.

New Arrivals to pray for:

Erika is 13, both her parents are deceased, and her older sister is unable to assume custody. After living on the streets, she's now soaking up the love and attention she so desperately needed.

Nine year old Cielo was left in her grandmother's care in a small mountain village. A victim of abuse and neglect, she's had no schooling but is bright and now very happy. It's such a blessing to see her personality emerge.

Jimmy is 11, his father is in prison, and his mother is an alcoholic. He was roaming the streets of his small town unattended when picked up by the authorities. Bright, active, and happy, he has a lot of potential in the right environment.

Please pray for their salvation!

We are very thankful for the Lord's provision allowing us to put in a 6" well that now delivers a steady supply of ground water for irrigation as our garden areas expand and decreasing our dependance on city water which is usually inconsistent. As He provides, we would like to build an above ground pool by next summer. It will be a great asset moving forward both for the kid's activities as well as irrigation.

Thank you so much for your prayers!!
