

Rising Star

News of some of the Lord's work in Northern Peru

Fifteen year old Dayana departed Morning Star back into her mother's custody this past week. Having been with us for over a year she was certainly exposed very clearly to the Gospel. Having come from a very dysfunctional and broken family there were many attitudes to adjust immediately and probably her biggest take-away was that it's possible to live in peace and harmony when Biblical principles are applied to life. Please pray that the seed sown will be used by the Spirit to spring up to life eternal.

A year after

fracturing his left leg, JeanFranco now can get around on his own due to the steel rod in his tibia. However there has been no healing of the bone. Many of you have been praying for the Lord's will regarding him and his twin brother JeanPier's future, and THE LORD ANSWERS PRAYER!!! His new adoptive parents, a lovely couple from Great Falls, VA, will arrive the 17th of this month and once the process is completed will be able to get him much better medical attention in the US. The boys are very excited and counting the days until their arrival. Please pray that everything goes smoothly.

The arrival of nine-year-old Belen a couple of weeks ago brought us back to full capacity. Her parents went their separate ways several years ago and

since then she's been in the system, first at another children's home and then with her paternal grandmother who due to her age and failing health had to hand her back over to the authorities. Starved for affection and attention she quickly settled into her new environment and is very happy. Please pray for her salvation.

We are grateful we can continue to serve these delightful children and direct their attention towards a heavenly Father who loves and cares for them.
